Regional Developments

As part of the Lafayette-based Derek Development's plans to make its recently announced \$200 million development Imperial Pointe off Nelson Road a "healthy community," its President, Roland "Rocky" Robin has released details about the fitness and wellness center that will be included as part of the overall development. According to Robin, "In a first-class development like this that includes hospitals, medical offices, surgical buildings, office parks, residences, assisted-living facilities, retail outlets and restaurants; it is just a good business decision to integrate these living components with a center that includes all the amenities that focus on healthy living."

Construction on the fitness and wellness facility is scheduled to begin within six months and with an estimated completion timeline of 12 to 14 months.
